

# Top 10 Reasons Vision33 Customers Choose SAP Business One

In today's challenging business environment, Vision33 has used SAP Business One to help our clients become some of the best run companies in the world. With this fully integrated solution, our customers have a clear view of their business and are able to react to market demands with increased insight, efficiency and flexibility. Along with the many benefits this platform has to offer, the following are the top 10 reasons Vision33 customers choose SAP Business One:

## BUILT BY INDUSTRY EXPERTS

As a world leader in financial and enterprise resource planning software solutions, SAP provides stable and proven technology for companies of all sizes.

## FULL VISIBILITY FOR SMART BUSINESS DECISIONS

As an integrated ERP solution, SAP Business One provides clear visibility into how your business is performing using real-time information and advanced reporting. By implementing this solution for Omega Morgan, Vision33 has helped them gain a clear picture of daily financials, sales and the ability to forecast and plan resources as needed.

## PROVEN SCALABILITY TO GROW WITH A BUSINESS

From maintaining an extensive customer base, managing supplier relationships, and supporting higher volumes of transactions, SAP Business One can be scaled to fit your business needs. [Summit Casing Equipment](#), a fast growing oil and gas services company, implemented this platform in 2011 and since then has grown their business by 234%.

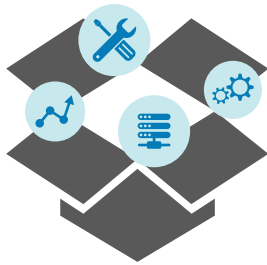

## CORE BUSINESS FUNCTION INTEGRATION

From financials and accounting to inventory and production, SAP Business One has helped Vision33 customer, [IES Engineering](#), provide comprehensive support for each functional area of their organization; consolidating information and eliminating data entry across all areas of an organization.

## CHOICE OF DEPLOYMENT METHOD – ON PREMISE OR HOSTED

Whether you have a small to mid-sized business or even a subsidiary of a large enterprise, SAP Business One offers you the option to choose the deployment method that best fits your business needs. Vision33 customers deploy this trusted application either on premise or via the cloud through the best in the industry – Amazon Web Services.

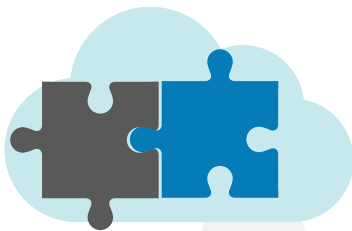

## COMPLIANCE WITH INDUSTRY SPECIFIC STANDARDS

Vision33 offers a range of [industry solutions](#) designed specifically for SAP Business One to meet your needs. In addition to the core functionality you expect from SAP Business One, each industry solution offers support for specific processes, meeting industry standards and complying to government legislation.

## ACCESS TO KEY BUSINESS INFORMATION IN REAL-TIME

With access to real-time information in SAP Business One, Vision33 customers such as [Virtual Graffiti](#) have empowered their front line staff and management with the most accurate data to make key business decisions.

## CUSTOM PLATFORM TO MEET YOUR NEEDS

"SAP Business One is a solid solution that supports complete integration of all our business processes, while providing the flexibility we need. When partnered with a dedicated and insightful partner like Vision33, we have been able to customize the solution and maximize the value we provide to our customers" Tom Johns, VP Business Development & Operations, [Envelopments](#).

## USER-FRIENDLY COCKPIT DESIGN

The SAP Business One solution interface has a user-friendly cockpit design that enables tasks to be organized at a company level and at a user level. This enables Vision33 customers to accomplish daily and long-term tasks effortlessly.

## ACCOMPANIED BY WORLD-CLASS SUPPORT

Designed to empower our SAP Business One customers, Vision33 provides world-class customer support with a team of certified Consultants throughout North America. This ensures customers are supported beyond implementation, but also have the knowledge transfer needed to be successful.

For growing SMEs, success depends on access to critical business information for informed decision-making to seize new market opportunities and stay competitive. An integrated, affordable solution like SAP Business One will provide full visibility across your organization with real-time reporting that leverages information from all key business areas. This solution is a proven scalable platform that lets you streamline operations, create customized dashboards for advanced analytics, automate redundant processes, eliminate duplicate data and much more. By moving from an accounting software package or spreadsheets to SAP Business One, your business processes are completely integrated, providing a clear view of your organization to outperform your competitors and drive growth.
